

CREATOR CONNECTION

Create your dreams into reality and Connect with aligned visionaries to optimize your project creation for market delivery.

We are a bridge incubator helping you to succeed your envisioned dreams and goals.

We are connecting entrepreneurs, talents and creatives globally on this platform to empower and optimize your ideas, projects and skills to help you accomplish your goals, passions, vision and purpose.

“Create connections with like-minded individuals and develop infinite projects!”

We are a new age company that believes success belongs equally to everyone.

You can achieve your grandest goals starting from scratch or teaming up with current ongoing projects.

All you need is an idea, a synergetic team aligned with the idea and the necessary skills from each individual to manifest the desired vision.

We offer important key resources to help you get started and throughout your journey. We offer the connection to people with the required skills and ideas needed that evolve around the key vision.

We believe contribute skills not funds.

EXAMPLE:

IF YOU'RE PASSIONATE ABOUT TRAVELING AND THE ENVIRONMENT YOU MAY COME UP WITH AN IDEA TO CREATE A DIGITAL TRAVEL COMPANY THAT IS GEARED TO HELPING SIMILAR PEOPLE FIND ECO FRIENDLY PLACES TO TRAVEL OR WHY AND HOW TO BECOME A ECO TRAVELER.

LETS SAY YOUR SKILLS ARE IN THE KNOWLEDGE THAT YOU NEED TO PRODUCE THE CONTENT AND THE MARKET RESEARCH FOR THE PROJECT AS WELL...

BUT YOU NEED SOMEONE THAT IS SKILLED IN THE TECH INDUSTRY, GRAPHIC DESIGN, WEBSITE DESIGN AND PUBLIC RELATIONS.

THE PLATFORM WILL PROVIDE ACCESS TO OTHER MEMBERS WITH THE SKILLSET NEEDED. WE BELIEVE IN EQUALITY AMONGST CREATIONS. IF YOU'RE A START UP WITH AN IDEA LOOKNG FOR A TEAM AND YOU START WITH 4 PEOPLE ON THE PROJECT AND ALL INDIVIDUALS ARE DOING EQUAL AMOUNTS OF WORK THEN THE EQUALLY AMOUNT OF SHARES WOULD BE DIVEDE TO EACH PERSON. EACH INDIVIDUAL WOULD RECEIVE 25% OUT OF 100% IN THAT CASE. THIS IS A DECISION FOR YOUR TEAM TO DECIDE.

EXAMPLE:

JACK HAS AN IDEA AND TEAMS UP WITH JILL THAT LIKES AND IS ALIGNED WITH THE PROJECT IDEA AND THEY START COLLABORATING.

IF JACK IS DOING THE MARKETING, PUBLIC RELATIONS AND MARKET RESEARCH AND JILL IS CREATING THE WEBSITE, GRAPHIC DESIGN AND CONTENT AND THE AMOUNT OF

WORK IS EQUAL (JUST A DIFFERENT SKILLSET) THEN THEY WOULD PROBABLY TAKE EQUAL OR CLOSE TO EQUAL SHARES OF THEIR COMPANY THEY'RE CREATING. SO JACK WOULD HAVE AROUND 50% AND JILL WOULD HAVE 50% OF THE COMPANY. IT'S BEST TO BE VERY CLEAR BEFORE STARTING THE PROJECT WHAT EACH INDIVIDUAL WILL BE DOING AND WHAT IS A FAIR PERCENTAGE OF THE PROJECT TO SHARE.

For entrepreneurs looking to start a project:

Step 1: Sign up, create a profile and add email for notifications of the project you're starting.
Step 2: Go to the category of you choosing that is aligned with your vision and announce briefly what you'd like to create and what and who you need to start your project. All individuals that are interested with the skillset you require will respond to you within the messenger in the app. Within each category there are other individuals signed up as interested in that subject that would like to create something around that topic. They may already have their own ideas that you could all involve to improve and develop upon. As long as you and the other individuals are aligned with the vision then it's a good match to create the project. More minds and skills are better than less or one.
Synergy is Syntropy. Syntropy is Fruition. Fruition is Success.
Step 3: Gather all the people you need in the beginning to start the project and GO. You can request more people to your team in the future as the project grows and needs more skills. We provided a platform where you all can collaborate and create for your project.
Step 4: Look at the companies we've partnered up with that can help produce what you need to add to your project for success.
Ex: food production manufactures, clothing manufactures, laboratories, marketing and public relation companies, publishers, coaches, tech equipment, investors.
Step 5: CREATE! CREATE! CREATE!

For individuals looking to get involved with a new or currently devolving or developed project:

Step 1: Sign up, create a profile and add email for notifications to receive response about the exception to the projects you apply for.
Step 2: Pick a category of interest and choose as many projects and ideas you're passionate about or aligned with.
Step 3: Make an inquiry to the team to join the project and why you'd be of benefit and why you're interested.
Step 4: After you've heard back from them and have been accepted it's important to ask them any important questions you have about key details in the product, what they expect from you, why they're a good fit for you and what your percent or payment will be in the company that will be shared with you by the other members of the team. (Your percent varies on what the team needs from you and what you're willing to offer in time and value).

We empower equality amongst individuals with their valuable time. We express that to every member to keep in mind with every project they create with each other.

Step 5: Have fun! Start creating and adding value to the chosen project you'd like to expand and grow!

CATEGORIES OF PROJECTS TO CREATE & GET INVOLVED WITH

- HEALTH & WELLNESS
